

Fastroi

EFFICIENT CARE
MANAGEMENT SYSTEM
– SIMPLIFYING THE
MANAGEMENT OF CARE

fastroi
– Caring together –

Fastroi

Fastroi are a software company producing health and social care management systems for both residential and domiciliary care. At Fastroi, we believe that Health and Social Care companies deserve the latest digital tools to help them deliver a higher quality of care with greater accountability.

Our fully integrated system allows management a better overview of the operations of their business, while allowing their employees to be more focused on care work.

BENEFITS

- Our customers have made 25-30 % cost and time savings in their daily routines
- Quality of care improves through real time reporting and data management
- Create a better work environment with more time to care.

Attendo 

Attendo Oy belongs to the Swedish Attendo group and is Scandinavia's leading care and healthcare service company with 11.000 employees in Finland. Attendo has some 400 care and service homes in Finland.

”

We wanted to implement a versatile care management system that covers customer reporting and invoicing as well as other reporting needs.”

PIIA OKSANEN
System Coordinator at
Attendo Oy

Fastroi Real-Time Care™ - for Domiciliary, Nursing and Residential Care

Finnish made, Real-Time Care™ is one of the most comprehensive tools available to Care organisations, allowing them to develop a more efficient, higher quality service by using a single integrated platform. RTC™ can bring about process improvements that result in better CQC ratings.
